Articulating Arm & Platform Combinations

- Platforms are extruded high density polyethylene material. Low profile ½" thickness. Extremely durable.
- Any platform may be attached to any mechanism. Holes are pre-drilled and bolts are furnished.
- Slide mounts to bottom surface of desk, swivels 360° and allows user to slide tray and keyboard up to desk.
- Low profile does not interfere with knees.
- Steel construction with a durable black-powder coat.
- Lockable tilt and height adjustments allow user to custom align the tray for personalized use.
- Tray has 15° positive and 15° negative tilt.

Articulating Arms

- 6" height adjustment
- Knob adjustment on arms (F & G)
- Lift & lock articulating (H)
- 360-degree rotation
